Nothing They Cannot Get Away With. The Fact They Were Caught in the Act This Time Brought Some Explanations From Official Authorities.

PHOENIX, Feb. 12.—In addressing the question of the Monroe doctrine, Sir William Harcourt said he was in favor of the doctrine, but he was not in favor of the doctrine as it was at present.

He added that the doctrine was not a doctrine of the United States, but a doctrine of the United States and the United States alone.

# IN NEW YORK SOCIETY.

They Were Relatives by Divorce, but the  
Matter Seemed Complicated.

It was their first meeting in several  
years, and of course they had a great  
deal to say to each other.

"I have been so busy that I haven't  
had time to study it out," said the one  
in blue. "But I think we are related in  
some way now, are we not?"

"No, I think not," replied the one in  
dark brown. "Where did you get that  
idea?"

"Why, I had an impression that the  
second wife of your first husband was  
the first wife of my present husband, and  
that would make a sort of connecting  
link, you know."

"Possibly you are right, but we could  
hardly call that a relationship. We can  
be closer than that through your son  
and husband, who was a cousin, two or  
three degrees removed, of my present  
husband, but even that does not make  
any relationship, I think, perhaps, that  
you have become confused in the con-  
cept of alimony, which constitutes the  
most direct connection."

"I never could get these complicated  
relationships through my head," said the one  
in blue.

"Well," explained the one in dark  
brown, "the alimony that you get from  
your first husband is really just a high  
way to the alimony that your present  
husband's first wife gets from him."

"Yes, I let him have it for that pur-  
pose."

"Then his first wife," continued the  
mathematician in dark brown, "was  
my first husband's second wife, and as  
he is paying me the same amount of al-  
imony the money is simply transferred  
to me. That is where the connection  
comes in."—Chicago Post.

# SKETCHES BY M. QUAD

To Help Bill Out.

One of the most innocent looking old  
men I ever saw came down to New York  
the other day from his farm in Pennsylv-  
ania to do with green goods, men, and  
of course he got lost. Fortunately for  
him he was old and had \$100, and  
therefore he lost only that amount. I  
met him at the depot as an officer had  
him in tow to see that he got away safe-  
ly, and when he had told the story of  
how he had been done for, I asked:

"You didn't expect to get \$500 in  
good money for \$150, did you?"

"No, I can't say I did," he replied.  
"But you thought it would be money  
good enough to pass?"

"Yes. They sent me two \$1 bills, and  
they looked all right and passed all  
right."

"But you would be passing counter-  
feit money on your neighbors and caus-  
ing them a loss."

"No, I wasn't going to pass any of it  
off on the neighbors. I wouldn't do such  
a thing as that. I might have got rid of  
some of it to chicken buyers and tin-  
potters, but I wanted most of it for my  
son Bill. Bill is into politics and  
poker till you can't rest, but he hasn't  
had a fair show. That's what I was  
going to give him."

"Just how do you mean?" I asked.

"Well, when Bill goes about even as  
how he'll be \$50 that so and so will be  
injected in the president's stomach  
at him to put up or shut up. He hasn't  
got nothing to put up, and so he has to  
shut up. If he is in a game of poker  
and gets a good hand he's got to call instead  
of raising the other fellows out of the  
game. I've known him to lay down  
with three aces because he hadn't a dol-

pany will soon take the road.

McKee Rankin is hard at work on a  
play for "Elevator" James J. Corbett.

But McElash will be starred next  
season. So will lots of other actors who  
are good in every character roles.

The English plays produced in New  
York this season have not added to the  
bank accounts of their exploiters.

Stock companies for the exploitation of  
American plays had far to give the  
native drama a much needed boost.

Jack Mason and his wife, Marion Ma-  
son, have made a success of a little  
sketch on the continuous performance  
genre.

The Aubrey Bonicault-Sadie Marti-  
not company will abandon Dion Bonicault's  
dramas and play "Harbor  
Lights" only.

W. A. Brady will invade Australia  
next month. He will be aided and abet-  
ted by the matron of "Trilby," with  
the aid of which he hopes to make a  
conquest.

Acton James J. Corbett now says that  
he could have "hooked" the Pennsyl-  
vania fireman whom he didn't "hook"  
if outsiders hadn't interfered with him.  
That is the stage elevated.

A Horror.  
As silent as the shaft of night  
The stars across the plain  
He came, all eyes in his flight  
Of lightning and pain  
And though you didn't choose your way  
Your course he's sure to follow—  
This fearful creature of dismay,  
The wanderer on the lake.

Then in the crash, when eloquence  
Exalts to the highest powers,  
When you have reached your world's intense  
To think of something to do  
A check note, three times all the rest  
You sense is not a word  
The wanderer whom you thus addressed  
Turns out to be a girl.  
—Washington Star.

One Possible Exception.  
"Terribly cold!" cried Mr. Tuck-  
man as he met the minister. "Every-  
thing frozen over at last, I'm certain."  
But the minister shook his head  
doubtfully. "You mustn't make that an  
excuse for staying away from church any  
longer," he said warningly.

And Mr. Tuckman was half way  
down the street before he saw the applica-  
tion of it.—Rockland Tribune.

WEDNESDAY - FEBRUARY 12

Republican candidates for secretary of state are coming out of the bushes everywhere.

Begins to look like the Harrison boom will have almost as many heirs as Anneke Jens.

Weyler, the new captain general of Cuba, appears to be one of those fellows who talk too much.

And still additional school buildings are considered an early necessity for Marion. Goodness, how we grow.

There ought to be enough single men in the Ohio legislature to influence the killing of the matrimonial tax bill.

At last the worm has turned. The city will try bringing an injunction suit once. It may result in a change of luck.

It is expected that the Ohio Republican league in session at Columbus today, will add a whereas and a hurrah for McKinley.

If Governor Bushnell keeps on improving in oratory he may soon be compelled to give up his title of "just a plain business man."

Johanna, New York's famous chimpanzee, now smokes cigarettes. Johanna is not the only monkey that has contracted the habit, however.

Perhaps the Quay candidacy is a simple effort employed by Mr. Quay to enable him to keep a tight rein on the Pennsylvania delegation at St. Louis.

The efforts in the Ohio legislature to substitute electrocution for hanging are not timely. The present method of strangulation would seem quite humane in the case of the murderers of Pearl Bryan.

President Cleveland returned to Washington from his last trip with 32 dead ducks to his credit. If a man of his aim ever gets an eye on a third-term nomination it will have a mighty poor show of escaping.

A bill providing for two cent railroad fares has been introduced in the Ohio legislature. It will probably be allowed to die a natural death in order to prevent the use of sensational violence. But demise is reasonably sure.

Laureate Austin, in his latest poem, asks: "Who would not die for England?" We feel safe in assuring Alfred that not a single subscriber of our large and constantly increasing list would for a moment think of doing such a thing.

The nomination of M. A. Smalley, of Upper Sandusky, for United States marshal, would indicate that Senator Brice still has some influence with the President. Smalley earned the recognition in his diligent labor for Brice last fall, and jealously guarded the strong box containing the Bricean influence.

The Findlay Republican believes that the passage of the \$500 tax law will reduce the saloons of that city 50 per cent, and will probably close all the saloons in the county outside of Findlay. If it does all that it will probably do more in the way of practical temperance reform than the Harris bill, which the Republican was inclined to strongly favor.

The chain of evidence against Jackson and Walling, the supposed murderers of Pearl Bryan, is being forged link by link. The process is necessarily slow, as there are many mysteries to be solved in connection with the crime of the century. In the meantime public interest in the awful details revealed from day to day shows no sign of abatement. Whether directly guilty of the murder or not the two men now in custody are in a position to change them as a pair of the blackest criminals before the public.

The Star has arranged to give very liberal attention to the anti-rental services now in progress in this city. A great interest has been awakened in the meetings and an intelligent and comprehensive synopsis of the sermons of Evangelist Potter and fellow workers delivered each day. These sermons are written with care and will assist those interested in retaining the principles and arguments of the sermons.

It will not cost candidates from Marion \$100 to \$200 to procure tickets, as under the delegate system, Upper Sandusky Union.

That is of interest here, where the democracy has just changed from the delegate to the primary system, and has been in vogue in Wyandot County. It is to be hoped, for the sake of our aspring democratic friends, that nominations will not reach the maximum prices as indicated under the same system in Upper Sandusky.

The Kentucky legislature has unanimously adopted a resolution declaring in favor of electing United States senators by a direct vote of the people. Kentucky legislators apparently have no further use for deadlocks, and have taken the means at hand to exert their influence toward avoiding them in future. While the desired remedy is not in sight the "Ohio plan," which has just worked so charmingly, might be adopted by other states as an immediate relief.

## DESTITUTE FAMILIES.

Infirmity Director Haberman Finds Some Serious Cases.

Christopher Haberman, of the board of Marion county infirmity directors, was called to LaRue today to give attention to a couple of cases of destitution that had been brought to the attention of the board. The cases are both those of paupers who are lying sick and must have immediate relief, and according to the letters sent to Mr. Haberman both are in frightful condition.

Mary Daugherty and her seven-year-old child are lying ill at LaRue, and are destitute of almost the common necessities of life. They came to that village three weeks ago from Harding county, and Mr. Haberman will investigate the matter and have the Harding county officials attend to her case if that is her home.

S. T. Farrell, aged 37, is also quite sick and in destitute circumstances, in Bowling Green township. Farrell is suffering an attack of typhoid fever and the township trustees notified the infirmity directors that he must be given attention. Mr. Haberman is of the opinion that he will have to be moved. He has had several similar cases in the vicinity of Wildcat during the winter, and states that the houses that many of these people live in are unfit for habitation.

## MEETINGS CLOSE

The Successful Religious Revival at LaRue at an End.

LaRue, Feb. 12.—The meetings that for over five weeks have been in progress at the M. E. church at this place closed last night with results very gratifying indeed. Over one hundred professed conversions. Fifty-nine thus far have united with the M. E. church and sixteen have joined with the F. B. denomination.

The meetings were not conducted as union services, yet quite a number of the members of the F. B. church and in the meetings, and thereby a feeling of harmony has been created that did not previously exist. Both churches have been revived and it is to be hoped that many more will come into the churches, also that many more will begin the new life at the meeting, which will begin at once in the F. B. church. Our hearts are filled with prayers for the good work, yet we feel that much more must be done.

## RAILROAD NOTES

Operator Sutton, of Elgin, on the C. and E. was in the city today.

The C. H. V. and T. received a trainload of export cattle today from Chicago for Norfolk, Ohio.

The Utah House on the C. H. V. and T. has been sold to Mr. and Mrs. John Dugger. The transfer was made by Green Brothers about one week ago. Mr. Dugger was formerly manager under Mr. Green here, and then took the management of the Upper Sandusky House.

For the first week in 1936 the Columbus, Sandusky and Hocking shows a decrease, but the statement of A. W. Durand, author of the road, shows that the decrease is accounted for by the bad weather, driving back on the shipment and light road traffic. The comparison is as follows: 1935, \$1,120,000; 1936, \$1,000,000, a decrease of \$120,000.

The chain of evidence against Jackson and Walling, the supposed murderers of Pearl Bryan, is being forged link by link. The process is necessarily slow, as there are many mysteries to be solved in connection with the crime of the century. In the meantime public interest in the awful details revealed from day to day shows no sign of abatement. ## MY SERIOUS FIRE.

THE BEAR HIVE SUFFERS IN A PECULIAR MANNER.

From Some Unknown Cause a Further Commencement To Burn and Cause Not a Little Destruction—No Explanation Can Be Offered.

If there are any such things as spirits they were surely about at the T. H. B. Beagle home on east Center street Tuesday night.

About 7:30 o'clock, Tuesday evening, Dr. and Mrs. F. S. Adams were sitting in their front parlor. The rest of the family were at church, when their attention was attracted by the smell of smoke.

Going into the rear parlor they found the parlor door ajar, and saw a fire between the rear parlor and a wood chamber in flames and burning briskly.

Dr. Adams endeavored to extinguish the flames but failed until he dragged a burning curtain down and stamped out the flames on the floor.

The parlor was of course wrecked, as was also the curtain pole and the carpet, which is burnt and scorched in many places. The paper is smoked and the door frame is all blackened, blistered and burned. This, together with a badly burned head sustained by Dr. Adams in extinguishing the flames, covers the damage done.

A strange circumstance in connection with the fire was the fact that the curtain was not burning at the bottom where it would naturally be expected to catch fire but at the top, along the pole.

How the fire started must ever remain a mystery. There is no stove in either of the rooms connected by the door, no one had passed under the curtain with a lighted pipe or with a lamp. In fact no lamps are used down stairs and there were no matches in either of the rooms.

The family has been trying all day to figure out how it occurred, but have at last concluded to give it up as a bad job. It was certainly a most mysterious affair from beginning to end.

## TAKEN SUDDELY SICK.

Samuel Bent, a motorman on the street car line, received word from his wife, this afternoon, who has been ailing for some time, that she was much worse and bidding him good bye. Bent hurried to his home, on north Prospect street, and found that his wife was suffering from a severe attack of heart trouble. She has been a great sufferer from heart trouble, and was taken much worse shortly after noon today. Mr. Bent found his wife to be very bad, but she revived and is much better at present.

Dress Goods by the yard, and especially blacks, have been cut to close before our new spring importations arrive.

More rapidly and more surely than ever before will this store become popular during this season on account of the wonderful loveliness of the spring goods, the remarkable richness and variety of the assortments shown and the unprecedented lowness of the prices. This last is more astonishing when you consider the fact that Uhler, Phillips & Co.'s prices have always been lower than competition. Our advertisements can be thoroughly depended upon in every particular.
